

7 Mile Road Property Master Plan - Overall Concept Plan Feedback Results

This chart combines all the uses shown on the four concept plans and identifies their overall ranking. A point value was assigned to each response: very desirable = 3, desirable = 2 and not desirable = 1. There were some uses that were featured on multiple concept plans. The overall ranking is based on an average score. Average scores range from 1 (least desirable) to 3 (most desirable).

Average Score = [Total Points for the use] / [Number of votes of that use].
