Open to all Northville students in grades 6-12

The YAB mission is to invest in the youth of our community and empower them to do the same. NYN offer programs and services for youth that help build physical, emotional, and social wellbeing. The YAB provides an opportunity for youth to have a voice in the type of programs and services we provide, serve as ambassadors of NYN in their schools, develop their own service projects, learn valuable leadership skills, and have some fun, too!
