Dear Business Owner/Operator,

In an effort to streamline the inspection process and to improve our community’s risk reduction, the Northville Township Fire Department (NTFD) has implemented **InspectionReportsOnline.net (IROL)**. IROL is a web-based, inspection report management system that connects Authorities Having Jurisdiction (AHJ), Service Providers (SP) and Commercial Property Owners (PO). This system manages the required Inspection, Testing, and Maintenance (ITM) records of fire and life safety systems across the jurisdiction.

IROL allows our department, **as well as you as a Property Owner (PO)** to electronically receive, review and manage the required system inspection reports submitted by your Service Provider through one central and secure web location. Upon completion all reports are electronically submitted by your Service Provider through the IROL website. Inspection, testing and maintenance of fire protection systems, and their reporting, is required at intervals provided in the International Fire Code (IFC) and applicable standards to each system.

If your property receives any of the following required inspections, we are requesting that you register as a **Property Owner (PO)** with IROL. Please keep in mind that there are no costs for Property Owner’s (PO) to register, or use, the IROL site as a Property Owner.

| | |

| Fire sprinkler systems (wet/dry/pre-action/etc.) | Fire alarm systems |
| Fire pumps | Kitchen hood suppression systems (UL 300, etc.) |
| Special fire protection systems (FM 200, etc.) | Any other fire protection system |
| Additional required inspection reports may be submitted via IROL, but their submission via IROL is not REQUIRED by the NTFD at this time (fire doors, emergency lights, fire extinguishers, backflow tests, AEDs). | |

In order to register and learn more about the benefits for **Property Owners**, please follow the steps below:

1. Visit [Inspection Reports Online](http://InspectionReportsOnline.net) and click on the “**Register Now**” link.
